SERVICE GUIDE

The "Oasi Tabor" RSA Services Guide is an easy-to-consult tool, to be used for any need to access residential services. It is a guide to facilitate and welcome new guests and their families upon entering the residence. The purpose of this document is to guide each guest in the environment where he will enter to live. To this end, a reception service has been set up within the administrative area with staff dedicated to guide, inform and to help guests and/or their family members.

R. S. A. "OASI TABOR"

The "Oasi Tabor" Healthcare Residence of the Sisters servant of the Visitation, a religious congregation with legal personality, proposes a work of welcome to elderly people of the third and fourth age. The residence, which can count on the presence of numerous religious personnel of the Congregation, professionally trained in the health and welfare field, is committed to constantly guaranteeing a service inspired by the values of faith and Christian charity. The Residence is divided into two nuclei of 20 places (higher and lower maintenance).

He can initially bring what is necessary for his insertion and subsequently integrate according to the actual need. It is recommended to leave all valuables at home as the Management is not responsible for any shorta-

SERVICES PROVIDED

General Medicine Services

The services of the curing Doctor of each Guest are carried out in the structure. The presence of the MMG (Doctor of General Medicine) is required for a number of hours proportionate to the number of patients assisted.

Services of the Doctor in charge

Responsibility for the management and organization of health services lies with the doctor in charge who is present in the residence every day, excluding holidays. He receives the guests' families by appointment.

Nursing services

The organization and coordination of nursing assistance is the responsibility of the Nursing Manager present in the facility every day. Nurses are responsible for general nursing care and are present every day, weekdays and holidays.

Motor Rehabilitation Services

The Motor Rehabilitation service is carried out by Physiotherapists who carry out rehabilitation interventions with professional responsibility. They carry out their intervention according to the assistance plan developed for each Guest.

Psychological counseling

The Management has established a relationship of regular collaboration with a Psychologist specialist who enters the residence with variable times for frequency and duration, according to the needs of the moment. He also organizes meetings with the staff of the structure and with the relatives of the

Occupational Therapy Service

Occupational therapy activities are carried out both individually and in groups. It integrates with the activities of the residence and becomes a daily care-style.

Dietary advice

The Dietitian elaborates the menu of the structure and the specific diets and performs a surveillance role on the correct application of the prescriptions, both by the kitchen and by the Nurses who distribute meals.

Specialist services

They are provided at the Residence by the *ASL RM 4* Specialists at the request of the Doctor in charge through the MMG (Doctor of General Medicine) according to the methods agreed between the two.

Social-Health Services

They include interventions aimed at the care of the person, considered in his psycho-physical entirety and in the totality of his needs, and the indirect activities necessary for carrying out the assistance functions.

Other services

The hotel service, concierge and administrative services are provided by internal staff. Transport services with ambulance, pedicure, hairdresser, funeral service are outsourced.

The Religious service: every day, at 10:00 in the Chapel of the RSA, guests can participate in the Holy Mass.
